To the Furniture Trade!

In all our Catalogues issued previous to this, we have devoted considerable space to a description and the advantages of our specialty,

THE MCLEAN PATENT SWINGING ROCKER.

This chair is now too widely known to require further commendation. We have made many improvements and have applied for patents on certain features of the chair, which make it the most durable as well as the most comfortable rocker now before the public. We respectfully call attention to our line of fancy floor rockers and platform spring rockers, all of our designs for 1892, are new and tasty. Our work is well and smoothly made, and we put it upon the market, expecting it to stand or fall upon its own merits.

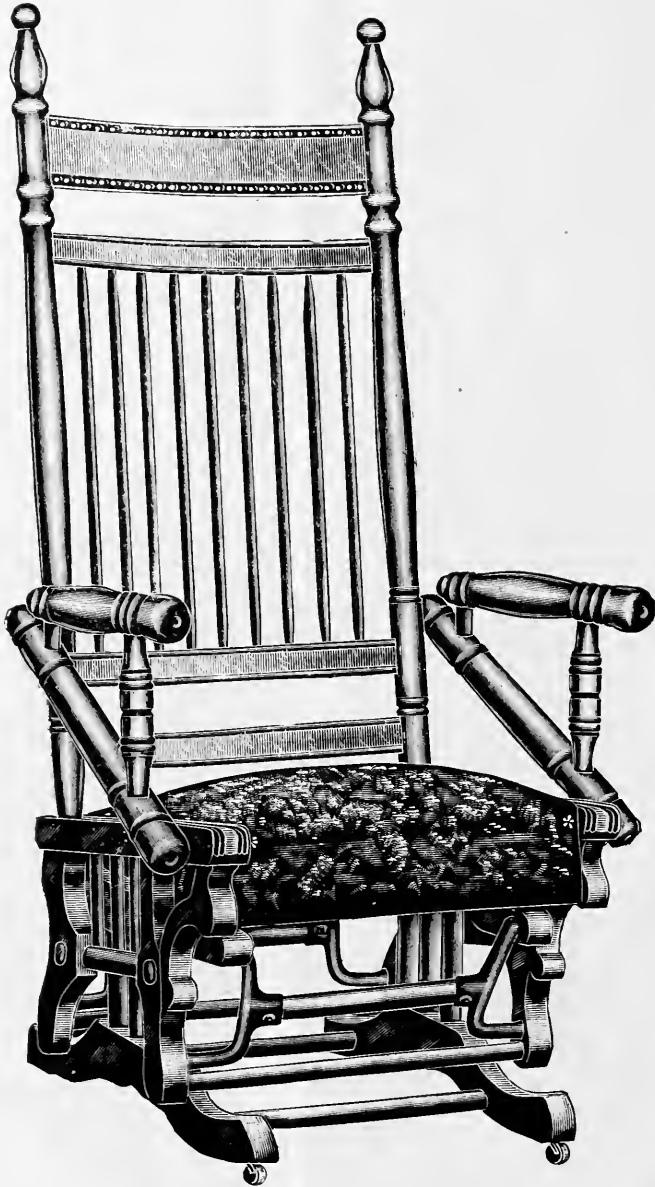

The Wisconsin Chair Company.
